KEY FEATURES

High Growth Potential

Structural Tailwinds

Unconstrained Approach

INDXX GLOBAL CLOUD COMPUTING INDEX

SELECTION

- Companies that have exposure to the following sub-themes are reviewed for inclusion:
 - Software as a Service (SaaS):** Companies that provide subscription-based, cloud-hosted software, including companies with “recurring revenues”, “annualized recurring revenue” or “subscription revenues”.
 - Platform as a Service (PaaS):** Companies that offer cloud-based platforms for software development and deployment.
 - Infrastructure as a Service (IaaS):** Providers of virtualized computing resources, including Database-as-a-Service (DBaaS) solutions.
 - Data Center Real Estate Investment Trusts (REITs):** Companies that own and manage secure data storage facilities, offering a range of products and services to protect servers and data.
 - Cloud and Edge Computing Infrastructure/Cloud Infrastructure Components:** Manufacturers and distributors of hardware for cloud and edge computing.
- To qualify for inclusion, companies must:
 - Derive at least 50% of revenue from the above sub-themes (“Cloud Computing Companies”) OR generate at least \$500 million in public cloud infrastructure revenue (“Public Cloud Companies”).
- The index selects the top 30 Cloud Computing Companies ranked by cloud computing revenue percentage attributed to cloud computing and the top 10 Public Cloud Companies ranked by public cloud infrastructure revenue
 - A maximum of 5 Data Center REITs will be included in the final index and if there are fewer than 10 eligible Public Cloud Companies, all are included in the index.

SELECTION POOL

- Primary listing in a Developed or Emerging Market as defined by the Indxx Country Classification, excluding India, Taiwan, and Vietnam.
- Minimum market capitalization of \$200 million USD.
- Minimum free float percentage of 10% of shares outstanding or minimum free float market capitalization of \$1 billion USD.
- Average daily turnover greater than or equal to \$2 million over the last 6 months (or since the IPO launch date, in the case of significant IPOs).
- In case a security does not have a trading history of 6 months, to be considered for inclusion, significant IPOs must have been listed at least 10 calendar days prior to the ‘Selection Date’, and 3 months for other IPOs
- An IPO is considered to be a “Significant IPO” if its company level total market capitalization is greater than the company level total market capitalization of at least 50% of the on-going index constituents as of previous ‘Reconstitution Selection Day’.

WEIGHTING SCHEME

- Index components are weighted by market capitalization with the following constraints applied at each semi-annual rebalance:
 - Each Cloud Computing Company is subject to a maximum weight of 4%.
 - Each Public Cloud Company is subject to a maximum weight of 2%.
 - All Index Components are subject to a minimum weight of 0.3%.
 - The aggregate weights of Public Cloud Companies and Data Center REITs are each capped at 10%.

REBALANCES/REVIEWS

- The index follows a semi-annual reconstitution schedule. Adjustments are made on the second Friday in May and November.

*For the complete and current index methodology please refer to the index provider's website. This summary document is accurate as of the time of its publication and Global X does not guarantee that it is current at any point thereafter.

The selection of the index constituents and their weighting is made by the index provider at its sole discretion.

Carefully consider the fund's investment objectives, risks, and charges and expenses before investing. This and other information can be found in the fund's full or summary prospectus, which may be obtained by visiting globalxetfs.com. Please read the prospectus carefully before investing.

Investing involves risk, including the possible loss of principal. The investable universe of companies in which CLOU may invest may be limited. The Fund invests in securities of companies engaged in Information Technology which can be affected by rapid product obsolescence, and intense industry competition. International investments may involve risk of capital loss from unfavorable fluctuation in currency values, from differences in generally accepted accounting principles or from social, economic or political instability in other nations. CLOU is non-diversified.

Shares of ETFs are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Brokerage commissions will reduce returns. Indices are unmanaged and do not include the effect of fees, expenses or sales charges. One cannot invest directly in an index.
