## MSCI ALL COLOMBIA SELECT 25/50 INDEX

### SELECTION POOL

- The underlying universe for the Index includes all the constituents in the Broad Colombian Equity Universe.
- The Broad Colombia Equity Universe includes securities that are classified in Colombia according to the MSCI Global Investable Market Index Methodology, together with companies that are headquartered or listed in Colombia and carry out the majority of their operations in Colombia.

### SELECTION

- Eligible companies must have a minimum liquidity threshold of 6-month Annualized Traded Value (ATV) greater than or equal to USD 25,000,000 and 6-month Frequency of Trading (FOT) greater than or equal to 95%.

### WEIGHTING SCHEME

- The securities are weighted according to their free float-adjusted market capitalization.
- No group entity\* can exceed 25% of index weight.
- All group entities\* with a weight above 5% cannot exceed 50% of the index weight.

### REBALANCES/REVIEWS

- The index follows a quarterly rebalancing schedule. Rebalances are made on the close of the last business day of February, May, August and November.

\*Per MSCI, Group entities are defined as, financial accounts of listed companies holding stakes of 20% or more in other listed companies are analyzed to determine whether these stakes are controlling in nature and, consequently, whether both companies should be considered as belonging to the same group entity. In certain cases, even in the absence of consolidated accounts, MSCI may consider two companies as belonging to the same group entity where there is reasonable evidence of control based on other information.

Investing involves risk, including the possible loss of principal. International investments may involve risk of capital loss from unfavorable fluctuation in currency values, from differences in generally accepted accounting principles, or from economic or political instability in other nations. Emerging markets involve heightened risks related to the same factors as well as increased volatility and lower trading volume. Securities focusing on a single country may be subject to higher volatility. COLO is non-diversified.

Shares of ETFs are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Brokerage commissions will reduce returns. Indices are unmanaged and do not include the effect of fees, expenses or sales charges. One cannot invest directly in an index.
