

REASONS TO CONSIDER

High Growth Potential

The global silver market was estimated to be \$7B in 2023, with forecasts suggesting it could grow to over \$11B by 2028, thanks in part to growing demand from increased industrial applications.⁽¹⁾

Appeal of Silver

Historically, investors have turned to silver as a potential store of value. However, it also has a broad range of industrial applications, including solar panels, LED lighting, electronic devices, and more.

ETF Efficiency

In a single trade, SIL delivers efficient access to a basket of companies involved in the mining of silver.

Industrias Penol	5.63%	Ssr Mining Inc	3.24%

The performance data quoted represents past performance and does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance quoted. High short-term performance, when observed, is unusual and investors should not expect such performance to be repeated. Returns for periods greater than one year are annualized. For performance data current to the most recent month end, please call 1-888-493-8631, or visit www.globalxetfs.com.

All Sector, Industry and Geographic breakdowns, where provided, are based on equity positions held by the ETF and exclude cash, currencies, and other holdings.

DEFINITIONS

Solactive Global Silver Miners Total Return Index

The Solactive Global Silver Miners Total Return Index is designed to reflect the performance of the silver mining industry. It is comprised of selected companies globally that are actively engaged in some aspect of the silver mining industry, such as silver mining, refining, or exploration.

(1) The Business Research Company, Oct 2024

Investing involves risk, including the possible loss of principal. International investments may involve risk of capital loss from unfavorable fluctuation in currency values, from differences in generally accepted accounting principles, or from economic or political instability in other nations. Emerging markets involve heightened risks related to the same factors as well as increased volatility and lower trading volume. Narrowly focused investments may be subject to higher volatility. There are additional risks associated with investing in silver and the silver mining industry. SIL is non-diversified. The information provided is not intended for trading purposes, and should not be considered investment advice.

Carefully consider the Fund's investment objectives, risk factors, charges, and expenses before investing. This and additional information can be found in the Fund's full or summary prospectus, which may be obtained by calling 1.888.493.8631, or by visiting globalxetfs.com. Please read the prospectus carefully before investing.

Shares of ETFs are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Brokerage commissions will reduce returns. Beginning October 15, 2020, market price returns are based on the official closing price of an ETF share or, if the official closing price isn't available, the midpoint between the national best bid and national best offer ("NBBO") as of the time the ETF calculates current NAV per share. Prior to October 15, 2020, market price returns were based on the midpoint between the Bid and Ask price. NAVs are calculated using prices as of 4:00 PM Eastern Time. The returns shown do not represent the returns you would receive if you traded shares at other times. Indices are unmanaged and do not include the effect of fees, expenses or sales charges. One cannot invest directly in an index.

Global X Management Company LLC serves as an advisor to the Global X Funds. The Funds are distributed by SEI Investments Distribution Co.
